HARCOURT BIJOUX

180 years of elegance and seduction!

Thomas Bastide celebrates the star of glasses and expresses the Harcourt spirit in a collection of jewelry with personality, graphic and radiant with modernity.

A signature element of the Maison, the octagon mounted on vermeil is transformed into pendants, brooches, bracelets and earrings.

Striking and unusual, the multi-faceted cut ring takes on the appearance of a signet ring.

Enhanced by a golden thread, its sculptural lines capture all the light.

In clear, blue, red or green, blue riviera, blue-green scarab, clear or red mirror, each piece is dressed in electric hues to enhance all styles.

A captivating and glamorous beauty, a true fashion icon.

So Harcourt!
