## FUTUREDECO CHANDELIER

Composed of crystal tiles, the new Futuredeco pays homage to the Art Deco style of the «Jet d'Eau» chandelier created by Georges Chevalier in 1925. A cascade of light in motion, it's available in two versions to suit every interior. The multi-faceted crystal tiles epitomise the brilliance of Baccarat light associated with avant-garde technology. Between architecture and design, the Tuiles de cristal collection created by Arik Levy produces an infinite repertoire of designs. Both modern and innovative, the tiles adapt to every want and need: mounted as a lighting fixture, placed on a wall or fitting the shape of a bar, as with the new Bbar at the Maison Baccarat in Paris. In 2018, they have been developed as chandeliers or ceiling fixtures of different heights so as to smoothly blend with every style of interior. In a new metallic version, the tiles majestically reflect their surroundings. With crystal tiles, you can let your imagination run wild. Bespoke luxury to make your most fanciful dreams come true.
