## LE ROI SOLEIL • TABLE NEW ANTIQUE

“In an ode to the know-how of the manufactory’s artisans, I set out to celebrate the timeless quality of the Zénith chandelier, a Baccarat icon. Le Roi Soleil glitters and radiates throughout a kingdom of light.”

Marcel Wanders

Baccarat is pursuing its collaboration with the internationally recognised Dutch designer Marcel Wanders by way of two new surprising creations.

### **Le Roi Soleil**

A dazzling reinterpretation, Marcel Wanders has imagined a sphere of light. An exceptional creation that he has named Le Roi Soleil as a tribute to the illustrious monarch Louis XIV.

Marcel Wanders transformed Baccarat’s iconic Zénith chandelier by redesigning the contours and softening the angles. Marcel Wanders stretched and distorted the twisted branches, tassels and octagons to create a perfect heavenly body, a symbol of modernity. The crystal shades are adorned with cut motifs and are inclined to better embrace the curves of the chandelier. The result is the imposing Le Roi Soleil, the promise of a new era of light.

### **New Antique table**

Marcel Wanders has imagined a stunning version of the New Antique vase he designed in 2014. Turned upside down and crowned with a white marble top, the re-invented object has been transformed into a side table. A subtly concealed rechargeable LED system disappears for an even more magic effect. As if suspended in mid-air, the lit-up table adorns the space around it with a captivating aura.
