BLUE TOPAZ • MAISON OSTRO

“The combination of Baccarat and Ostro unique skills has given rise to the vision of the ‘Blue Topaz Chandelier’. The masterful craftsmanship and design in bringing together, for the first time crystal and 700 blue ostrotopaz® gemstones has created a magnificent jewel of light and colour”.

Maurice Ostro

‘Blue Topaz Chandelier’ is a result of the exceptional collaboration between Baccarat and the House of Ostro, renowned the world over for the beauty of its precious natural blue topaz. Adorned with 700 topaz gemstones and thousands of crystal beads, the chandelier has been transformed into an authentic piece of bespoke jewellery. This magnificent cascade of light is dedicated to Max Ostro, the founder of Ostro Minerals and a passionate collector of Baccarat who dreamed of one day being able to realize this masterpiece. Like a jewellery set for home lighting, the collection is complemented by a wall unit decorated with 75 ostrotopaz® gemstones.
