ZENITH CHARLESTON

The “Charleston” collection, stunning interpretation of the timeless “Zénith” icon, gives a sparkling start to the 2015 dance of light. The collection, inspired by the 1920s, pays tribute to a period of prolific creativity, art and innovation. The chandeliers, candelabras and sconces are decorated with champagne-coloured drops, in the manner of the long pearl necklaces and the drapery of the dresses worn by Charleston dancers. These new creations, in champagne-coloured crystal obtained by adding 24-carat-gold powder, take us on journey back to the radiant, joyful Roaring Twenties.

The “Charleston” chandelier has been chosen to light up the very first Baccarat Hotel in New York where it will further celebrate the incomparable sparkle of Baccarat lighting which has captivated the world for over 250 years.
