GINGKO

Inspired by the ginkgo biloba leaf, this vase with its understated lines designed by Thomas Bastide features a surprising fan-shaped silhouette. For the first time, a peacock engraved on the surface of the vase majestically spreads its plumage. The trim is delicately enhanced with touches of 20-carat gold applied by brush by the gilders of the Manufacture. The bird, synonymous with renewal in the West and a sign of peace in China, it represents immortality and fertility in India. Now and more than ever, the Baccarat peacock symbolises beauty and perfection.
