## MEDICIS

An exceptional re-issue of one of the finest pieces from the Baccarat collection, the Medicis vase was created in 1909 for the International Exhibition of Eastern France. Crafted only by MOFs (France Best Craftsmen), this vase is a masterpiece representative of the history of Baccarat. Inspired by ancient Florentine marbles, this majestic creation, standing over 1 meter high and weighing 80 kg, is a reflection of the neoclassicism in vogue during the XIX century. The vase, in sublimely cut crystal, stands on a bronze base adorned with the claws of a lion. A brilliant creation in 18 pieces only, to allow top collectors to become part of the Baccarat legend.
