PASSION COLLECTION
TRULY, MADLY, DEEPLY

Passion collection is composed of 3 glasses specially designed combining shape and beauty with a clear Baccarat identity. A truly impressive wine glass, a madly wonderful champagne glass and a deeply well-thought-out martini glass, all three have been crafted to transform any tasting into a source of pleasure and joy. The wine and champagne glasses are wide enough to allow you to feel the aromas and therefore fully appreciate all flavors for a complete tasting experience. The shape of the champagne glass facilitates the retention of bubbles so you may admire their hypnotic ballet for longer.

For those who wish to decant their favorite wine or champagne and showcase its hues through the purity of Baccarat crystal, the Passion collection also includes two decanters, one for wine and one for champagne that can also be used for white or red wines.

The Passion collection, conceived in collaboration with Jean-Charles Boisset, brings the ultimate tasting experience into your universe.

The glass, the one, the only, the ultimate.

Dreamed and designed by Jean-Charles Boisset, created by Baccarat. Inspired by wine, and in love with luxury, bold visionary and daring vintner Jean- Charles Boisset declares his admiration for Baccarat with the Passion Collection.

«Wine is the ultimate expression of the senses and art of living. It requires the most refined vessel to present itself. Our dream glass with Baccarat is a sensory experience that unites palate, mind an heart.»

Born into the world of wine in Burgundy, Jean-Charles's lifelong passion began as a child, growing up among the vineyards and collecting Baccarat from a young age. Today the vintner boasts a Franco-American collection of historical and unique wineries in the most prestigious terroirs, from Burgundy to California. Jean-Charles pursues the family art guided by tradition, know-how, and respect for the environment.
