MIRAGE AMBRE

Dream or reality? An alliance of *Harcourt* and *New Antique* codes, of crystal and marble, this imposing creation over 1.17 meters high merges two vases into one. Between mirror effect and optical illusion, the Mirage vase plays with perspective, leaving no one indifferent. In 2024, it bursts into flames, crafted in amber crystal, as a tribute to the fire of passion that has driven the artisans of the Manufacture for 260 years.
